Satellite radio provides variety and quality that are not available on regular FM and AM radio stations. I choose to pay for satellite radio and feel that it should not be up to the National Association of Broadcasters to determine whether I listen to XM Instant Traffic and weather, as they are seeking to ban that service. I respectfully urge to FCC to reject to NAB's petition 04-160 and to support XM's ability to provide the kind of programming that its paying listeners demand and deserve.

Sincerely,

Jennifer Coriell
